CHORAL SOCIETY CONCERT.-The take place at the First Congregational Church this evening promises to be the most successful that has been given in many years. It will illustrate the development of Italian and German opera and con-trast the two schools by giving numbers trast the two schools by giving numbers from the best exponents of each. The composers represented will be Bellini, Donizetti, Verdi and Mascagni of the Italian school and Handel, Mozart, Beethoven, Weber and Wagner of the German. The selections to be given are those that will best typify the earlier efforts of the writers and also the later developments of modern times. They have been made so as to give the Choral Society an opportunity to appear at its best in purely chorus as well as in concerted work, and the rehearsals as in concerted work, and the rehearsals that have been had under the skillful di-rection of Prof. Josef Kaspar indicate that bass. The two last are well known locally, but all the others will be heard at the coming concert for the first time in Washing-ton. The sale of seats is already very large, and it is expected that the house will be entirely sold out before the concert

At the rehearsal held last night all the soloists were present and every number given in the most satisfactory manner.

REMAINS NOT IDENTIFIED.

Body of the Man Found Floating in the River. The badly decomposed body of a white man was found in the river off the foot of South Capitol street yesterday afternoon about 3 o'clock, as noted in The Star of yesterday. Members of the crew of the police boat took the body from the water and had it sent to the morgue. Charles Mann, whose father's place of business is at the foot of South Capitol street, made the dis overy and notified the police. Because of the condition of the body recognition mpossible. There was no flesh on the face and the remains were too badly decomposed to stand much of an examination. trousers were still in good condition.

ced shoes were on the feet and the man's trousers were still in good condition. The trousers were made of worsted of a bluish check pattern. Several pieces of a shirt were clinging to the body. About the neck was a piece of a white shirt band.

Coroner Carr examined the body, but could learn nothing to indicate the cause of the man's death. One shoe and a piece of the trousers are held at the morgue for identification. How the body got into the water may never be known. It is regarded as a probable case of suicide or accidental drowning, while it is possible the man was murdered and his body thrown into the water.

Unless the piece of goods cut from the dead man's trousers is identified the body will be consigned to a grave in potter's field, which will be marked "Unknown."

By a recent order of th Commissioners dumping was prohibited, but some of the property owners encouraged the unloading of ashes and other material there, claiming that the Commissioners had no right to make such an order.
